Re: Proposed changes to Routes 43 and 44 for Fall 2009

---

As mentioned in last month's meeting, KAT staff is proposing a schedule change to Routes 43 – University Heights and Route 44 – Gateway at Knoxville. Both routes serve apartment complexes and The University of Tennessee when UT is in fall and spring sessions. Both routes operate currently on a 30-minute frequency and the operational costs are subsidized in full by the complexes.

KAT proposes to reduce each complex's service frequency from every 30 minutes to once every hour.

If approved, this change would take place in August 2009.
